Keynote Address “HINDU IDENTITY”

by

Rajiv Malhotra, Author & Philanthropist
President, Infinity Foundation, Princeton, NJ

Rajiv Malhotra is a much sought-after speaker on contemporary issues relating to the challenges facing Hinduism in a world dominated by western ideologies. With advanced degrees in Physics and Computer Science, Rajivji built a very successful career as a management consultant before taking early retirement to establish, and work full-time, for the Infinity Foundation whose goal is to promote East-West dialogue and a proper understanding of the Indian civilization experience in the world, particularly in USA and India. In pursuit of this goal, Rajivji has authored several books, appeared in many expert panels, and supported many institutions and individual scholars by financial grants. As Indian Americans are anxious to find the right balance between Hindu cultural values and western societal and business ethics, his talk on Hindu Identity will be of topical interest to our members, including our youth.
